

Silver Mountain School of Hotel Management

Silver Mountain School of Hotel Management, located in Lainchaur, Kathmandu, Nepal, is fully dedicated to the implementation of UN Global Compact's ten principles in the areas of human rights, labor, the environment and anti-corruption. In our own small way, we have encouraged an institution that harnesses equal employment opportunities, equal education opportunities, and taken proactive initiatives to eradicate child labor in our institution.

SMSH vigilantly accepts the principles that underline the goals of Global Compact and will continue to do so in the future. A diverse workforce, integrated backgrounds of students, and an attempt to create environmentally sustainable business practices is the means by which we believe we are able to minimize our environmental impact on the world and maximize our social responsibility.

SMSH's attested commitment to Global Compact can be seen below. We proudly share this commitment with all prospective students and clients of SMSH through our declaration in the SHSM Prospectus.
