Adjustment Request (Participant ID 13183)

Dear Sir or Madame,

as a statement of support for the UN Global Compact and its principles Stuttgart Airport issued its first COP report on the 8th of February 2012. Since we recognize that a key requirement for participation in the UN Global Compact is the annual presentation of a COP, we continued to post the subsequent COP in 2013 in due time.

Stuttgart Airport will publish its first sustainability report next year. So far we have issued two environmental reports, one in July 2010 and one in June 2013. Accordingly, our sustainability report will be published in summer 2014. We intend to align our COP deadline with this reporting time. Thus, we would like to request an adjustment for the COP submission deadline, knowing that this deferral would be of a non-recurrent nature. In case of your approval we would submit our COP report on the UN Global Compact website at the latest by the 1st of August 2014.

Please let us know your decision regarding our adjustment request.

Yours sincerely,
Flughafen Stuttgart GmbH

Walter Schoefer
Managing Director
