Statement of continued support

Ladies and Gentlemen,

I am pleased to confirm that CWS-boco International GmbH strongly continues to support UN Global Compact and its 10 principles with respect to human rights, labour, environment and anti-corruption. Since joining the UN Global Compact 4 months ago we work to make Global Compact and its principles part of the strategy, culture and day-to-day operations of our company.

Sustainability is a central component of CWS-boco's corporate strategy. In our business model, increasing economic success and sustainability go hand in hand. We see ourselves as a pioneer in terms of sustainability in the textile services industry and we take our responsibilities towards our employees, society and the environment very seriously. We would like to continuously promote the topic of sustainability at CWS-boco and are doing our utmost to achieve this. It is our goal to commit ourselves to a more sustainable and livable world in the future as well.

Sincerely,
