5th November 2013

H.E. Ban Ki-moon  
Secretary-General  
United Nations  
New York, NY 10017  
USA

Dear Mr. Secretary-General,

AQ Electric Suzhou Co., Ltd. develops and manufactures inductive components, electrical cabinets and wiring systems for demanding industrial customers.

We first committed to the UN Global Compact in 2011 and I am pleased to confirm that we continue to support the ten principles of the Global Compact with respect to human rights, labour, environment and anti-corruption. With this communication, we express our intent to advance those principles within our sphere of influence. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engage in collaborative projects which advance the broader development goals of the United Nations; particularly the Millennium Development Goals. We will continue to make this clear to our stakeholders and the general public.

We recognise that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes the company's efforts to implement the ten principles. We support public accountability and transparency, and therefore in addition to this letter we respectfully issue our COP of this year 2013. We hope that you will find that we have made solid steps in our commitment to the Global Compact in the past three years. We naturally welcome any advice on how we can further improve.

Sincerely Yours,

James Ahrgren

Managing Director  
AQ Electric Suzhou Co., Ltd.
