**Grace Period Letter****From: DTEK Ltd.****To: The Global Compact Office****Date: 04.16.10****To whom it may concern:**

DTEK knows that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP) that is comprised of a statement of continued support for the UN Global Compact, a description of practical actions with regard to the principles of the UN Global Compact, and a measurement of outcomes or expected outcomes. We also find the COP an effective tool for stakeholder dialogue and the sharing of best and emerging practices.

The Company DTEK joined the UN Global Compact in May 2007; our Social Report describes the key stages of the Company's dynamic growth and a natural link between CSR practices and our long-term sustainable development strategy. DTEK lays emphasis not only on participation in social and economic progress but also on timely, clear and accurate communications of results achieved and plans designed in this area to all stakeholders.

On February 11, 2010 we received a notification from you about DTEK Communication on Progress being required in 90 days.

True to its good will, DTEK has announced its social reporting 2 years period and intends to publish its next (second) Sustainability report 2008-2009 in November 2010. Thus, knowing the importance of participating in the Global Compact and how vital is the accurate documentation of the COP, we would like to ask you for a deadline extension in order to have the needed time to gather the required information to be able to post a COP that describes our company's efforts and progress to implement the principles of the UN Global Compact. We would also ask for deadlines adjusted to our standard reporting cycle which is late autumn for this year.

We ensure that our new COP report will be posted on the UN Global Compact website by November 15, 2010 at the latest.

Sincerely,

S. Kordashenko

Acting Chief Executive Officer
