H.E. Secretary-General,

On behalf of VACSERA (The Holding Company for Biological Products and Vaccines); we are honored to confirm that we are still committed to the United Nation Global Compact. We believe that collaborative work between counterparts in our industry can lead to considerable benefits and improvement in the work environment. We are aware of our social responsibilities and we do apply policies that prevent child labor & discrimination and promote health, preserve the environment and support the anti corruption principles that were added to the compact's framework.

So we are very pleased to continue being a member of the Global Compact in order to share experiences with a lot of respectable establishments all over the world, under the umbrella of the United Nations, and to expend our commitment to the principles of the Global Compact by learning from the experiences of Global Compact members and try to spread them in our community.

Sincerely yours,

Dr/ Raed Shokry
