

**Tata Industries' Communication on Progress for 2008-2009.**

- Mr. K. A. Chaukar, Managing Director, Tata Industries and Chairman, TCCI held a meeting of CEOs in order to integrate Environmental initiatives under Corporate Sustainability (CS). It addresses identifying and mitigating environmental risks – as intended in Principles 7 & 8 of UN Global Compact. A ten-point document is issued for action to all major Companies.
- TCCI supported Social Accountability International and GTZ who conducted 3 workshops in Mumbai, Pune and Bangalore on SA 8000 wherein more than 150 delegates were present. The purpose was to advocate on Social Accountability and support SAI in their efforts to start an India office.
- TCCI is working with Bhavishya Alliance to reduce malnutrition in the Indian state of Maharashtra. Tata Industries is a Trustee – Member Company. This year an initiative to improve the variety in supply of food impacted over 20,000 children in the district of Nandurbar through 1600 Self-Help Groups.
- TCCI is also monitoring for UN Global Compact (whatever is happening for CoP of non-Tata companies). We will now be assisting Dr. J. J. Irani – Director on UN GC to drive the Compact here.
