Dear Sir / Madam,

**Grace letter for Communication on Progress**

We are writing to request additional time to submit our latest COP that was due on 15 April 2014.

We could issue a new 2013 report, but it would not include the financial data. The reason is that under the Companies Act and the Zagreb Stock Exchange Rules, on which our company is listed under the symbol DLKV-R-A, we are obligated to issue financial reports on April 30, 2014, which makes us unable to fill out the tables in the Social Responsibility Report. Also, the rules have been changed with the new guidelines and we plan to include them in our report, which requires additional 90 days.

Please accept our sincere apologies for requesting an extension and we expect to be in a position to submit our COP in the next 120 days.

We hope you are able to agree to our request.

Kind regards

President of the Management Board  
Goran Brajdić
