Shareholders

Shareholder information.

Employee share ownership.

VINCI partnering institutions for sustainable development.

VINCI is involved in various projects in partnership with associations of which it is a member.

The Group has worked on authoring a Charter of Reciprocal Commitments between companies and societal ranking agencies within the context of the **ORSE** (Observatory for Corporate Social Responsibility).

Under the **ATEC** (Association for the development of transport, environment and traffic techniques), the Group's Delegation for Sustainable Development has contributed to the production of a Sustainable Transport Charter that attempts to define the main principles to be respected when installing transported-related infrastructure.

VINCI does also work in relation with **EPE** (Entreprises pour l'Environnement), the **Comite 21** and the **Orée** association.

In 2003, VINCI became a signatory to the **Global Compact**, a UN initiative to foster corporate support for Sustainable Development. VINCI has undertaken to respect, guarantee and promote ten principles covering the protection of human rights, labour and the environment (<http://www.unglobalcompact.org>).
