Communication on Progress COP

Dear Mr. Oliver Johner

We are sorry to send you the COP to late, we had some internal changes and the responsible person marketing wise was not in.

I am pleased to confirm that Corporate Fashion International AG continues to support the ten principles of the Global Compact in respect to human rights, labour rights, the protection of the environment and anti-corruption. With this communication, we express our intent to support and advance those principles within our sphere of influence. We commit to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company and undertake to make a clear statement of this commitment - both to our employees, partners, clients and to the public by internal media.

Please find below our communication on Progress COP as a description of our efforts that we did from the beginning until today 2010.

Sincerely yours,

Daniel Aeberli
