30<sup>th</sup> April 2014

To our stakeholders:

We recognize that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP) that comprises of a statement of continued support for the UN Global Compact, a description of practical actions with regards to the principles of the UN Global Compact, and a measurement of outcomes or expected outcomes.

We are late in creating, sharing and posting our COP report due to an unusually high number of special projects currently being undertaken, these include a number of important customer audits as well as Tenders for significant new contracts with existing and new customers.

We hereby ask for an extension period in order to be able to post a COP that describes our company's efforts and progress to implement the principles of the UN Global Compact. Our new COP report will be posted on the UN Global Compact website by May 30<sup>th</sup> at the latest.

Sincerely yours,

Mr Nick Lathe  
Finance Director
