COMMUNICATION ON PROGRESS 2010

PT. ERUDIO INDONESIA

Picture me believes that the most important human right basic, aside from being safe and having access to an education and a healthy living condition, is to have the ability and the freedom to pursue one's dream. This is the reason why Picture me is joining the Global Compact.

Monika Irayati
dreamfinder
CEO of PT. ERUDIO INDONESIA

Picture me as an educational institution are active not only in supporting but also in campaigning the most basic principle of the global compact.

On human right issues, we are encouraging our student and other children of their rights to voice out their opinions, concerns as well as their dreams for a better future.

Through our "Picture me for the Nation" program we are training hundreds of children, age 7-15 years from various social background including the under privileged children, to tell stories of socio economic and environmental issues around them through photography and comic reading.
