United Nations Global compact

Re: Grace Letter

This to submit my request for more time to finalize the delayed COP due to the reasons as explained below

Kindly note that Karen Blixen Camp changed the Ownership hence a new Management took over as well.

The contact details were personalized to the old Managers personal emails hence I never received any communication or update on what we should have done.

I only knew this when one of your staffs found our Directors email and send a letter reminding us we were late in submitting our COP. I personally contacted the UNGC Representative in Nairobi, we had a meeting and she guided me on how to proceed.

I am now in the process of doing the COP.I will submit this as soon as I finalize.

Karen Blixen would want to confirm that we will still be members of UNGC and we will adhere to the principles as stipulated.

Regards

Ronald Mutie
