9) GOALS OF 2014

1) GLOBAL COMPACT

The “United Nations Global Compact”, which was introduced and taken into effect by the United Nations in 2000, is an initiative that provides a framework for sustainable and responsible business practices to the companies .

The “Global Compact” has a great importance in that the business world supports the local and also the sustainable development by cooperating with the NGOs and local authorities. Fulfilling its activities in accordance with these principles since the day it was founded, **KANSUK LABORATUARI SAN. VE TİC. A.Ş.** signed the Global Compact on 24.05.2010, and also showed its determination on the issue before the international platform. We have participated into the United Nations Global Compact which published ten basic rules with the aim of reaching at a better condition on human rights, employee rights, environment and fighting against corruption and which encourages private sector, labour, civil society and state authorities to act according to these principles.

The principles of the “Global Compact” are as follows.

Human Rights

Principle 1: Businesses should support and respect the protection of internationally proclaimed human rights.

Principle 2: Business should make sure that they are not complicit in human rights abuses.

Labour

Principle 3: Businesses should uphold the freedom of association and the effective recognition of the right to collective bargaining

Principle 4: The elimination of all forms of forced and compulsory labour.

Principle 5: The effective abolition of child labour

Principle 6: The elimination of discrimination in respect of employment and occupation.

Environment:

Principle 7: Business should support a precautionary approach to environmental challenges.

Principle 8: Business should undertake initiatives to promote greater environmental responsibility.

Principle 9: Business should encourage the development and diffusion of environmentally friendly technologies.

Anti-Corruption

Principle 10: Businesses should work against corruption in all its forms, including extortion and bribery.

2) SCOPE OF REPORT

A report is communicated on the applicability and sustainability of the 4 issues and 10 principles that are stated in the global compact, in our company.

3) ABOUT KANSUK

Kansuk Laboratory, was founded in 1960 by Dr. İsmet Sözen, continues to perform successful studies on pharmaceuticals and medicinal materials, up to date by keeping its feature of being family company, and completely local firm.

Kansuk Laboratory has been authorized by the T.R. Ministry of Health to prepare, manufacture, import and export formulas, and to provide hospitals and other pharmaceutical firms with these. Kansuk Laboratory has ISO 9001:2008 and ISO 13485:2003/AC:2009 Quality Management Certificates as well as CE certificates for Blood bags, by performing manufacturing in accordance with the GMP.

Kansuk Laboratory is active in various fields including the manufacture of products for human use, serum and blood bag, import of blood products, and manufacture, import, technical service of medicinal device, import of weight control.

The Blood Bag manufacturing department was established in 1982 with the license of Biotest GmbH / Germany. The blood bags manufactured at this facility were exported to Western Germany and Holland for long years. The company continues its export activities to various countries at certain periods.

Kansuk Laboratory, the first and only blood bag manufacturer in Turkey, has been specialized in the field of blood thanks to its experiences that it gained for many years on this subject and to the recently received distributorships from the world wide known companies. Thus, it carries on its business in all subjects including collection of blood, separation of it into its components, processing of blood products, and turn-key blood projects. In order to expand the growth and higher the standards in the market, Kansuk has been supporting donor recruitment activities, training of blood bank personnel and users and all organizations working in this field

Dr. İsmet Sözen

Chairman of the Board of Directors

ABOUT KANSUK

MESSAGE FROM CHAIRMAN OF THE BOARD OF DIRECTORS

Dear Shareholders,

We, Kansuk, have been continuing in our studies as a company sensitive to environment and human since the year we were founded. Accordingly, we are proud of being one of the 33 companies having signed the Global Compact for human rights, environment, and fighting against corruption, which are mentioned the Global Compact.

DR.İSMET SÖZEN

ABOUT KANSUK

MESSAGE FROM DIRECTOR GENERAL

Acting against the world wide violation of natural richness that the fast-development causes and of the human rights, our firm has been in conscious of such issues against the labour and environment since it was founded, and has been continuing in our studies accordingly.

As a pharmaceutical firm, we have always been against the studies which may negatively affect the human health.

Being one of the leading firms agreeing on the Global Compact, we have been moving forward on this direction by making our firm gain ground thanks to applying these principles completely into our working conditions, and making the employees adopt these principles.

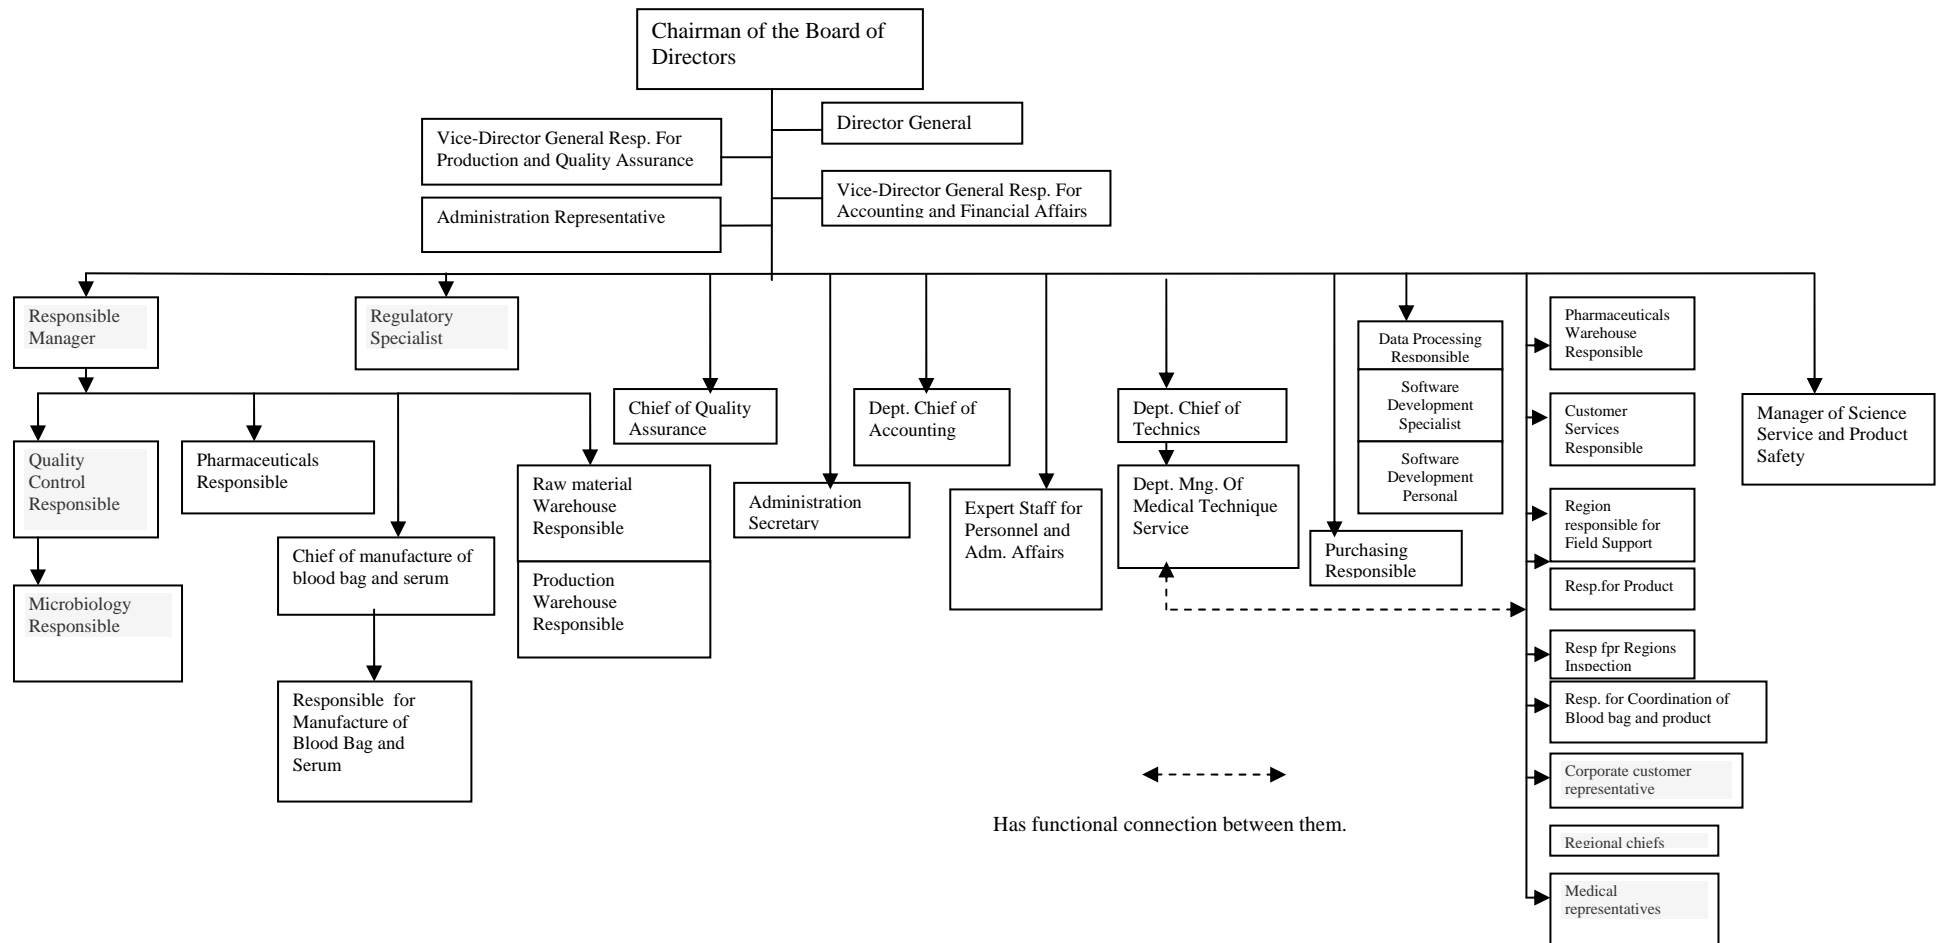

We will keep on sharing the improvements that we will accomplish every year by complying with the principles of Global Compact, with our shareholders.

TOLGA SÖZEN

4) SUSTAINABILITY OF OUR BUSINESS

By making our manufacture more productive, and consumptions more conscious, it relies on determining our goals, making plans, establishing strategies, and fulfilling these. Thus, we have been making contribution to our sustainability by moving through our quality policy.

Having this view, KANSUK;

- ❖ Does not swerve on the product and service quality.
- ❖ Believes the key to success is to work in a productive, disciplined, and planned way.
- ❖ Has a participant, fair and democratic administration, and an organization that has comprehended the necessity of being corporate, has been learning, and is open to criticism.
- ❖ Has the feeling of responsibility towards the society, and sensitive to environment.
- ❖ Is against the bigotry and conservatism on the way to the future.
- ❖ Believes in the power of team spirit in creating a calm working environment.
- ❖ Is customer-focused, determines the demands and expectations of the market, and leads its manufacturing activities accordingly.
- ❖ Gives value to cleaning and order, motivates economy, and is against the wastage.
- ❖ Gives value to human, and support sharing.

5) OUR SHAREHOLDERS

Kansuk recognizes any person, institution and organization, which affects the activity of Kansuk, or which is affected directly or indirectly by the activity of it, as its shareholder.

It is the basis of corporate communication strategy of Kansuk to create relations based on mutual benefit, trust and transparency with all of our shareholder groups.

Shareholders of Kansuk laboratory;

- ♦ Current employees of Kansuk
- ♦ Suppliers
- ♦ State institutions and organizations
- ♦ Customers
- ♦ Beneficiaries or users of our products
- ♦ Near public

6) HUMAN RIGHTS AND WORKING CONDITIONS

- Discrimination is prevented by the annual evaluation of quality profiles of the employees.

- The staff are not labored basing on their civil status.

Total Employees	Married	Single
234	126	108
%	% 53,84	% 46,15

7) ENVIRONMENT

Principle 7: Business should support a precautionary approach to environmental challenges

- The regulation on waste is conformed to, and its actuality is followed.
- Training is given on the regulation on waste.
- Medical and laboratory wastes are delivered to the municipality.
- The paper waste is delivered to the concerned company.
- Finished printer cartridges are given to the authorized firm to support recycling.
- Harm to the environment is prevented by giving the waste batteries to the authorized company.
- Electronic waste is given to the authorized company.
- In 2013, 45385 kg of papers and packaging wastes, and 1291 kg plastic wastes have been agreed to be recycled by the authorized company.

8. Business should undertake initiatives to promote greater environmental responsibility

- Being in the ISO environmental committee, we take part in the environment protective studies via our Director General.

Principle 9: Businesses should encourage the development and diffusion of environmentally friendly technologies

- Water saving is achieved by using dish washer in the dining hall and laboratory.
- Waste water is re-filtered, and re-used in the appropriate places according to the analysis result.
- At the transition areas of the factory, photocell devices are being used to save energy.

8) ANTI-CORRUPTION

10. Businesses should work against corruption in all its forms, including extortion and bribery.

- Anti-corruption is achieved by that all expenditures are invoiced and controlled.
- The forgery and bi-invoicing are prevented thanks to the QR Code system that is applied for the pharmaceuticals manufactured or imported.

9) GOALS OF 2014

- To train the employees about the Global Compact.
- To make all of our employees adopt the principles of Global Compact by improving the labour conditions.
- To make saving in paper consumption for environment.
