## Statement of Support for UN Global Compact

As a signatory to the United Nations Global Compact since June 2004, at Compass we are committed to taking action to support and uphold each of the ten principles relating to human rights, labour, environment and anti-corruption.

During 2007-2008, we have worked hard to improve our performance and believe that we have made good progress with regard to meeting our commitments, with particular focus on our environmental activities and performance reporting – see our online [2007-2008 Corporate Responsibility Report](#).

To view further details of the **practical actions** we have taken, such as the implementation of **performance indicators and metrics** together with our **Group policies**, please click [here](#). We will continue to develop our activities in response to the Global Compact commitments and provide timely COP updates to our stakeholders.
