Grace Period Letter

Siteimprove recognizes that one of the key requirements for the participation in the UN Global Compact is the elaboration of the annual Communication On Progress report.

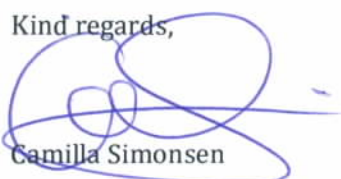

However, we have initiated a number of sustainable activities during the last year (which are still ongoing), from which the results will help us greatly increase the quality of our first COP.

- Siteimprove has signed a climate partnership with one of the leading energy groups in Northern Europe, DONG Energy. DONG Energy and Siteimprove are currently mapping our CO2-emissions and working on ambitious objectives on reducing our CO2 foot print.

This initiative is an essential part of our new greener profile and an important part of our first COP.

Therefore, we kindly ask for your understanding and request an extension of the COP submission date until June 3rd 2011, at the latest.

Kind regards,

Camilla Simonsen

CSR & Communication
