Dear Mr Kell,

**Communication on Progress:
Statement of Continued Support for the UN Global Compact**

It is my pleasure to confirm that SingTel, Asia's leading communications group with operations and investments around the world, will continue to support the ten principles of the UN Global Compact relating to human rights, labour, environment and anti-corruption.

SingTel is committed to strong corporate governance and continuous improvements as part of our sustainability efforts. We produced SingTel's inaugural Sustainability Report 2009/2010 last year. It provides an overview of our approach, policies, priorities and performance in the area of sustainability for our business operations and how we work with our regional associates.

The report adopts the reporting principles from the Global Reporting Initiative (GRI) G3 Guidelines and follows the requirements of the 'B' Application level and is GRI-checked.

You can view our report at <http://info.singtel.com/about-us/sustainability/sustainability-report>.

Thank you.

Yours sincerely,
