United Nations
New York, NY 10017
USA

Dear Mr. Secretary General,

LETTER OF COMMITMENT

I am pleased to confirm that The Convention on Business Integrity supports the ten principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following way(s): Through the Business Action Against Corruption (BAAC) Project facilitated by our organisation, we would use collective action to improve corporate governance and encourage a clean business environment in Nigeria, we would support and report on our corporate governance efforts, the organization would engage with UN Global Compact Local networks and also join and support issue platforms and work streams.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement that describes our organisation's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

We were made to understand that UN Global Compact initiated communication with the organisation in time past with the former contact person using her contact details as well as the organisation's webmail address. This has changed in the last five years and we were unaware of such correspondences. The new contact person, webmail and website details are listed below for future correspondence.

Sincerely yours,

Soji Apampa
Chief Executive Officer
