Levallois-Perret, 26<sup>th</sup> April 2017

Dear Mr. Secretary-General,

I am pleased to confirm that Devoteam supports the Ten Principles of the United Nations Global Compact on human rights, labour, environment and anti-corruption.

Past years, face to a tough and extremely competitive economic environment, Devoteam focused all of its energy on its strategic plan launched in 2012 and called Eagle. These transformation efforts empowered to restore Devoteam's growth and profitability among bests of market, thanks to the structuration of its operational model and activities rationalization. During this time, Devoteam was always active on sustainability policies even if the company didn't communicate on it.

With this communication, we express our intent to implement those principles. We are committed to making the UN Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. Devoteam will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the Ten Principles. We support public accountability and transparency, and therefore commit to report on progress within *one year* of joining the UN Global Compact, and *annually* thereafter according to the UN Global Compact COP policy. This includes:

- A statement signed by the chief executive expressing continued support for the UN Global Compact and renewing our ongoing commitment to the initiative and its principles. This is *separate* from our initial letter of commitment to join the UN Global Compact.
- A description of practical actions (i.e., disclosure of any relevant policies, procedures, activities) that the company has taken (or plans to undertake) to implement the UN Global Compact principles in each of the four issue areas (human rights, labour, environment, anti-corruption).
- A measurement of outcomes (i.e., the degree to which targets/performance indicators were met, or other qualitative or quantitative measurements of results).

Sincerely yours,

Godefroy de Bentzmann
