Dear Mr. Secretary-General,

I am pleased to reconfirm that CLARO SOL FACILITY SERVICES supports the ten principles of the Global Compact with respect to human rights, labour, environment and anti-corruption. With this communication, we express our intent to advance those principles within our sphere of influence. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Millennium Development Goals. CLARO SOL FACILITY SERVICES will make a clear statement of this commitment to our stakeholders and the general public.

The reason which we did not submit a Communication on Progress in the last years is that:

At the end of 2014 we were totally immersed in a corporate restructuring process that ended in the first quarter of 2016. For this reason, we were not able to achieve the necessary resources for the preparation of the progress report

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support public accountability and transparency, and therefore commit to report on progress within *one year* of joining the Global Compact, and *annually* thereafter according to the Global Compact COP policy.

Sincerely yours,

**CLARO SOL CARTERA, S.L.**
