**Greeting and respect ...**

I am pleased to confirm that Diwan company for contracting ,General trading and Investment supports the ten principles of the global compact with respect to human rights ,labour ,environment and anticorruption.

With this communication ,we express our intent to advance those principles within our sphere of influence ,we are committed to make the global compact and its principles part of the strategy ,culture and day- today operation of our company and to engage in collaborative projects which advance the broader development goals of the united nations. Particularly the millennium development goals Diwan company will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the global compact is the annual submission of communication on progress (COP) that describe our company's efforts to implement the ten principles we support public accountability and transparency and therefore commit to report on progress within one year of joining the global compact and annually therefore according to global compact COP policy.

The failure to submit a COP/COE by the required deadline in the last period was because of the security situation of Mosul city in Iraq where our head office located and all of us had left the city in 9 June 2014 and closed our head office at that time.

Best Regards
