Dear Mr. Secretary-General,

I am pleased to confirm that *Strix Nig. Ltd* supports the ten principles of the Global Compact on human rights, labour, environment and anti-corruption. With this communication, we express our intent to implement those principles. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. *Strix Nig. Ltd* will make a clear statement of this commitment to our stakeholders and the general public.

This recommitment letter is expressing continued support for the Global Compact and renewing our ongoing commitment to the initiative and its principles. This is *separate* from our initial letter of commitment to join the Global Compact, but requesting to rejoin the UNGC because of the latency in submitting our COP within due time due as a result of system failure.

- We maintain a strict code of ethics and Servicom in all our business transactions. We reject all questionable advances, promptly report incidents of impropriety, and file protests against corrupt actions. We do not engage in corrupt activity or sanction corrupt activity by any business associates or outside partners.
- In the past 3 years we have received training each year from UK Consulting firm implementing anti-corruption initiatives. We access a direct line to report any instances of improper sales, extortion or bribery.
- We continually encourage our manufacturers/vendors to ensure that there is a level playing field for all resellers to protect the interest of our customers and ensure open, fair and transparent competition.

Sincerely yours,

Mr. Aminuddeen Abubakar
President
