Dear Mr. Secretary-General,

I am pleased to confirm that Novelis supports the Ten Principles of the United Nations Global Compact on human rights, labor, environment and anti-corruption. With this communication, we express our intent to implement those principles. We are committed to making the UN Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects, which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. Novelis will make a clear statement of this commitment to our stakeholders and the public.

We initially joined the UN Global Compact (UNGC) in October 2011 and were subject to communicate on our progress in implementing the ten principles on an annual basis. However, in 2016, the individual within the company responsible for this submission left the organization and due to our internal failure to reassign this responsibility, we inadvertently did not meet the submission deadline. We would like at this time to recommit to our initial obligation.

We recognize that a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the Ten Principles. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the UN Global Compact, and annually thereafter according to the UN Global Compact COP policy.

Sincerely yours,

Steve Fisher
President and Chief Executive Officer
