Dear Mr. Secretary-General,

I am pleased to reconfirm that *Grupo TESCO, (Técnicas y Sistemas de Conservación S.A.)* supports the ten principles of the Global Compact with respect to human rights, labour, environment and anti-corruption. With this communication, we express our intent to advance those principles within our sphere of influence. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. *Grupo TESCO, (Técnicas y Sistemas de Conservación S.A.)* will make a clear statement of this commitment to our stakeholders and the general public.

The reason why we did not submit a Communication on Progress in the last years is that the person responsible for sending the communication, is no longer with the company. However, during the time we were not able to send the report, we kept following the 10 principles of the Global Compact. My apologies for any inconvenience and please do not hesitate to let me know if there is anything I can help you.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support public accountability and transparency, and therefore commit to report on progress within *one year* of joining the Global Compact, and *annually* thereafter according to the Global Compact COP policy.

Sincerely yours,

Tomás Riera
CEO de Grupo TESCO
