Letter of Recommitment to the United Nations Global Compact

Please accept this correspondence as Country Garden Holdings Company Limited's formal confirmation that we will continue to support the ten principles of Global Compact on human rights, labour, environment and anti-corruption.

Country Garden Holdings Company Limited(CG) has been a participant of United Nations Global Compact since 2015. CG is committed to continue rendering support to the United Nations Global Compact and will endeavor to abide by the ten principles. It is a pity that CG had been delisted due to the failure of communication caused by change of contact person. Even though we did not upload Communications of Progress, CG is still continuing the practices of the ten principles.

With this communication, we express our intent to implement those principles and advance those principles within our sphere of influence. The Company continues to pledge support to ten principles through its operations, strategies and culture.

Sincerely yours,

Mr. Mo Bin

CEO, Country Garden Holdings Company Limited
