H.E. António Guterres Secretary-General United Nations New York, NY 10017
USA

Dear Mr. Secretary-General,

I am pleased to reconfirm that Acaya Naturaleza y Vida S.L supports the ten principles of the Global Compact with respect to human rights, labour, environment and anti-corruption. With this communication, we express our intent to advance those principles within our sphere of influence. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. Acaya will make a clear statement of this commitment to our stakeholders and the general public.

The reason why we did not submit a Communication on Progress in the last years is that our company has undergone a deep restructuration motivated by our growth. In this process, part of the personnel in charge of fulfilling the above mentioned Communication on Progress has been assigned with other duties. Once this restructuration has been completed, a new team has been assigned and so we are resuming our commitment to the Ten Principles of the Global Compact.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the Global Compact, and annually thereafter according to the Global Compact COP policy.

Sincerely yours,

Juan Carlos Padilla Rodríguez

Managing Director.
