Dear Mr. Secretary-General,

I am pleased to reconfirm that *MUTUA DE ACCIDENTES DE CANARIAS (MAC)* supports the ten principles of the Global Compact with respect to human rights, labour, environment and anti-corruption. With this communication, we express our intent to advance those principles within our sphere of influence. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our organization, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. Mutua de Accidentes de Canarias (MAC) will make a clear statement of this commitment to our stakeholders and the general public.

The reason why we did not submit a Communication on Engagement in the last two years is that at that time there was a change in manager and also in charge of Corporate Social Responsibility.

We recognize that a key requirement for participation in the Global Compact is the biannual submission of a Communication on Engagement (COE) that describes our organization's efforts to implement the ten principles. We support public accountability and transparency, and therefore commit to report on progress within *two years* of joining the Global Compact, and *every two years* thereafter according to the Global Compact COE policy.

Sincerely yours,

A handwritten signature in blue ink, consisting of several loops and a long tail, is written over a faint, light blue version of the MAC logo and its text.
