## Letter of Commitment

Dear Mr. Secretary-General,

I am pleased to confirm by this letter of commitment that Götessons Industri AB supports the UN Global Compact and its ten principles, with respect to human rights, labor rights, environment protection and anti-corruption. With this communication, we express our intent to advance those principles within our area of interest. We are committed to make the Global Compact and its principles part of the company's strategy, culture and day-to-day operations, as well as engaging in collaborative projects to broaden the knowledge of the UN goals, particularly the Global Goals and the 2030 Agenda for Sustainable Development. Götessons Industri AB will make a clear statement of this commitment for both Global Compact and its ten principles, and the Sustainable Development Goals.

We recognize that a key requirement for participation in the Global Compacts is the annual submission of a Communication on Progress (COP), that describes our company's efforts to implement the ten principles. We support public accountability and transparency, and therefore commit to report on progress annually since joining the Global Compact according to the COP policy.

Sincerely,

Mr. Emil Johansson
