Partnerships for the Goals, by Sustainable Business Development. Sustainable Business Development & Innovation Foundation, (SBDI) is a foundation who guide start-ups to grow their business on a practical and sustainable way, with the United Nations Sustainable Development Goals as guidelines. Our practical program takes 3 years. 1 year operational, 2 year management, 3 year strategy. Our foundation is run by students for students, to give them the practical experience, so that they are ready to start their sustainable business.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact.

We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.
