LETTER OF COMMITMENT

Dear Mr. Secretary-General,

I am pleased to confirm that Copenhagen School of Design and Technology supports the ten principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public. We also pledge to participate in and engage with the UN Global Compact in the following way(s):

- Promote the UN Global Compact Ten Principles and educate a variety of audiences about sustainability.
- A description of practical actions (i.e., disclosure of any relevant policies, procedures, activities) that the company has taken (or plans to undertake) to implement the UN Global Compact principles or sustainability in each of the four areas defined by the UNESCO Whole Institution Approach for educational for sustainable development: Facilities & School Operations, Curriculum Teaching & Learning, Governance Policy & Capacity Building, Community Partnerships & Relationships.
- A measurement of outcomes (i.e., the degree to which targets/performance indicators were met, or other qualitative or quantitative measurements of results).

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely yours,
