### **UN Global Compact – Signatory Level: Letter of Re-Commitment**

Dear Mr. Secretary-General,

I am pleased to confirm that Hilti AG supports the Ten Principles of the United Nations Global Compact on human rights, labor, environment and anticorruption.

With this communication, we express our intent to implement those principles and to re-join the UN Global Compact as per April 1<sup>st</sup>, 2021 in the role of a signatory after our company was de-listed in 2019 due to no selection of an engagement tier. We meanwhile built up a systematic sustainability management. We are committed to making the UN Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals.

Hilti AG will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the Ten Principles. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the UN Global Compact, and annually thereafter according to the UN Global Compact COP policy. This includes:

- This statement signed by the chief executive officer expressing continued support for the UN Global Compact and renewing our ongoing commitment to the initiative and its principles. This is separate from our initial letter of commitment to join the UN Global Compact.
- A description of practical actions (i.e., disclosure of any relevant policies, procedures, activities) that the company has taken (or plans to undertake) to implement the UN Global Compact principles in each of the four issue areas (human rights, labour, environment, anti-corruption).
- A measurement of outcomes (i.e., the degree to which targets/performance indicators were met, or other qualitative or quantitative measurements of results).

Yours sincerely,

Christoph Loos  
CEO
