H.E. António Guterres

Secretary-General United Nations

New York, NY 10017USA

Dear Mr. Secretary-General, I am pleased to confirm that *Greentel* supports the Ten Principles of the United Nations Global Compact on human rights, labour, environment and anti-corruption. With this communication, we express our intent to implement those principles. We are committed to making the UN Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. *Greentel* will make a clear statement of this commitment to our stakeholders and the general public.

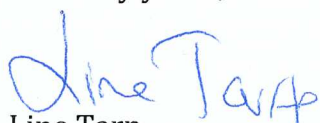

We recognize that a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the Ten Principles. We support public accountability and transparency, and therefore commit to report on progress within *one year* of joining the UN Global Compact, and *annually* thereafter according to the UN Global Compact COP policy. This includes:

- A statement signed by the chief executive expressing continued support for the UN Global Compact and renewing our ongoing commitment to the initiative and its principles. This is *separate* from our initial letter of commitment to join the UN Global Compact.
- A description of practical actions (i.e., disclosure of any relevant policies, procedures, activities) that the company has taken (or plans to undertake) to implement the UN Global Compact principles in each of the four issue areas (human rights, labour, environment, anti-corruption).
- A measurement of outcomes (i.e., the degree to which targets/performance indicators were met, or other qualitative or quantitative measurements of results).

Purpose and intension of the Greentel company are:

- To offer & supply simcard subscriptions for mobile phones
- To offer and supply our products at a price that everyone can afford.
- We want to do more than just sell simcard subscriptions. We want to be actively involved in making a difference for our environment and the oceans. This is also the reason why our name is GREEN TEL -> the green mobile company
- We invest in the rainforest in Ecuador to preserve nature and animal life
- We support organizations in Denmark who clean the beaches for plastic waste from the oceans
- In all our daily work we focus on how to minimize our waste, how to sort waste for recycling and we aim to reuse as much as we can.
- We are very focused on our employees wellbeing and as part of our company policy we offer extra healthcare insurance

Sincerely yours,

A handwritten signature in blue ink that reads 'Line Tarp'.

Line Tarp
