Commitment to Support the Principles of the United Nations Global Compact

Dear Mr. Secretary General,

I am pleased to confirm that the Health Supplements Industry Association (Singapore) supports the ten principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following ways:

- 1) As a representative of the Health Supplements industry in Singapore, our association seeks to understand issues that are material to members and to offer guidance on key sustainability issues as well as promote best practices.
- 2) As a trusted business voice, our association intends to engage with policymakers and other key stakeholders including the Global Compact Network Singapore to advance various key sustainability priorities.
- 3) As an industry association, we endeavour to engage with consumers and the public at large to raise awareness our sector's contribution to society.

We recognise that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organisation's efforts to support the implementation of the ten principles and to engage with the Global Compact. We therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Yours Sincerely

Daniel Quek
