Dear Mr. Secretary General, I am pleased to confirm that the Future Investment Initiative Institute (FII-I) supports the ten principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following way(s):

- Support the Ten Principles of the United Nations Global Compact by the highest executive
- Participate in Global Compact global and local events
- Organize own online and offline events that touch on Global Compact-related issues
- Develop thought leadership in sustainability and healthcare topics
- Catalyze innovation and initiatives by mobilizing partners and resources (e.g. through investments in early stage companies)
- Help drive forward the global agenda on Environmental, Social, and Governance (ESG)
- Monitor the outcome of our activities

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely yours,

Richard Attias  
CEO
