Dear Mr. Secretary-General,

I am pleased to reconfirm that AYSCOM CELULAR DE SERVICIOS S.L. supports the ten principles of the Global Compact with respect to human rights, labour, environment and anti-corruption. With this communication, we express our intent to advance those principles within our sphere of influence. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. AYSCOM CELULAR DE SERVICIOS S.L will make a clear statement of this commitment to our stakeholders and the general public.

The reason why we did not submit a Communication on Progress in the last years is that the person who was in charge of this is no longer working in the company nowadays, and we realized that we would want to keep working with you.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support public accountability and transparency, and therefore commit to report on progress within *one year* of joining the Global Compact, and *annually* thereafter according to the Global Compact COP policy.

Sincerely yours,

ayscom

Mr. Pedro Martín Vizcaino
Managing Director
