Dear Mr. Secretary-General,

Iliad Italia is an Italian Company, part of the French Group Iliad, whose main goal is to bring a Revolution in the Italian telecommunication sector by proposing clear and transparent commercial offers and promoting the digitalization of the Country.

Since 2017 we have been working with great commitment on building a last generation mobile network infrastructure all over the Country, in order to guarantee a high-quality service to our customers.

The reward for our efforts is represented by more than 7,5 million subscribers who have chosen to join our Revolution on the mobile market in the last 3 years.

Our next goal is to launch a commercial offer in the fixed business after the summer of the 2021, bringing in this business the same key principles that made us the best mobile operator in 2021 for users satisfaction about the price and the quality of our offer, according to ITQF (Istituto Tedesco Qualità e Finanza).

The results that we obtained in the last few years also bring great responsibility towards our customers, employees, the society and the environment, and we are aware of that.

Therefore, I'm pleased to confirm that Iliad Italia Spa supports the Ten Principles of the United Nations Global Compact on human rights, labour, environment and anti-corruption. With this communication, we express our intent to implement those principles. We are committed to making the UN Global Compact and its principles part of the strategy, culture and day-to-day operations of our Company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. Iliad Italia Spa will make a clear statement of this commitment to its stakeholder and the general public.

We recognize that a key requirement for the participation in the UN Global Compact is the annual submission of a Communication on Progress (COP) that describes our Company's efforts to implement the Ten Principles. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the UN Global Compact, and annually thereafter according to the UN Global Compact COP policy.
