Dear Mr. Secretary-General,

I am pleased to confirm that *ENGIE, Asia, Middle East and Africa (AMEA)* supports the Ten Principles of the United Nations Global Compact on human rights, labour, environment and anti-corruption. With this communication, we express our intent to continue to work with the Global compact to implement those principles and create awareness. We are committed to making the UN Global Compact and its principles part of our regional strategy, culture and day-to-day operations of our company, and to engage on collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals.

We recognize that a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the Ten Principles. We support public accountability and transparency, and therefore commit to report on progress within *one year* of joining the UN Global Compact, and *annually* thereafter according to the UN Global Compact COP policy.

This includes:

- A statement signed by the Chief Communications and Sustainability Officer expressing continued support for the UN Global Compact and renewing our ongoing commitment to the initiative and its principles.
- A description of practical actions (i.e., disclosure of any relevant policies, procedures, activities) that the company has taken (or plans to undertake) to implement the UN Global Compact principles in each of the four issue areas (human rights, labour, environment, anti-corruption).
- A measurement of outcomes (i.e., the degree to which targets/performance indicators were met, or other qualitative or quantitative measurements of results).

Sincerely yours,

Florence FONTANI
