UN Global Impact

Dear Sir or Madam,

RE: requesting Marli Technology Solutions to be accepted as a signatory – letter of commitment

Marli Technology Solutions is an ambitious start-up with the vision to help make the food supply chains carbon neutral by 2035. Our solution has been accepted as part of the Game Changers Lab Accelerator towards the UN Food Systems Summit. You can find details about our submission at this [link](#).

We are building a blockchain platform for companies to acquire high quality carbon credits to offset their remaining emissions and become carbon neutral. We would like to request being accepted into the UN Global Impact initiative as a signatory.

As the Director of Marli Technology Solutions Pty. Ltd., we commit to the requirements of the initiative.

Please let us know should you require further clarification on atn@marli.io
