Dear Mr. Secretary General

I am pleased to confirm that the Net Zero Technology Centre supports the ten principles of the UK Global Compact with respect to human rights, labour, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following ways:

- We will use the principles and targets of the Sustainable Development Goals to guide and inform our strategy and day-to-day decision-making processes.
- We will use the Sustainable Development Goals as measures to report to our Board, Government stakeholders and the wider public.
- We will promote the ten principles of the UN Global Compact and encourage our partners to adopt the principles.

We recognise that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organisation's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Yours sincerely

Colette Cohen OBE  
CEO, The Net Zero Technology Centre
