H.E. António Guterres

Secretary-General

United Nations

New York, NY 10017

USA

Dear Mr. Secretary-General,

I am pleased to confirm that Now.Here. (registered as Right Now Right Here) supports the Ten Principles of the United Nations Global Compact on human rights, labour, environment and anti-corruption. With this communication, we express our intent to implement those principles. We are committed to making the UN Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. Now.Here. will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the Ten Principles. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the UN Global Compact, and annually thereafter according to the UN Global Compact COP policy. This includes:

- A statement signed by the chief executive expressing continued support for the UN Global Compact and renewing our ongoing commitment to the initiative and its principles. This is separate from our initial letter of commitment to join the UN Global Compact.
- A description of practical actions (i.e., disclosure of any relevant policies, procedures, activities) that the company has taken (or plans to undertake) to implement the UN Global Compact principles in relevant areas.

Right Now Right Here

- A measurement of outcomes (performance indicators were met, or other qualitative or quantitative measurements of results).

I would like to share that Now.Here. fundamentally recognizes that we are all interconnected and that in order to heal the Earth, we need to also heal ourselves. We are inspired by the words of the poem R. Tagore:

“The same stream of life that runs through my veins night and day runs through the world.”

We are galvanized by the data that shows that pro-environmental attitudes and behaviours are strongly correlated to high levels of empathy and compassion. So, we embrace a unique approach; an approach that does not focus on providing more data or more science, but rather to move that info “from our heads to our hearts”, and to thereby overcome our apathy and inaction and to energize our intrinsic drive to live and act with greater kindness and compassion to the Earth.

With my sincere regards,

A handwritten signature in black ink, appearing to read 'Randolph Oudemans', with a stylized, flowing script.
