Dear Mr. Secretary-General,

I am pleased to confirm that Wisdom of Science Enterprise Pte. Ltd. supports the Ten Principles of the United Nations Global Compact on human rights, labour, environment and anti-corruption. With this communication, we express our intent to implement those principles. We are committed to making the UN Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. Wisdom of Science Enterprise Pte. Ltd. will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the Ten Principles. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the UN Global Compact, and annually thereafter according to the UN Global Compact COP policy. This includes:

- A statement signed by the chief executive expressing continued support for the UN Global Compact and renewing our ongoing commitment to the initiative and its principles. This is separate from our initial letter of commitment to join the UN Global Compact.
- The company has identified five priority goals to achieve through its core business: Good Health and Wellbeing, Affordable and Clean Energy, Decent Work and Economic Growth, Climate Change, Partnership for sustainable development.
- We have just embarked on the path of achieving priorities and are asking for a grace period on progress - a Report in the field of changes in the results of the implementation of the UN Global Compact principles.

Sincerely yours,

Artem Shcherbinin Mr.

Director of the Company
Wisdom of Science Enterprise Pte. Ltd.
