Dear Mr. Secretary-General,

I am pleased to confirm that Alam Flora Sdn Bhd is in full support of the 10 Principles of the United Nations Global Compact on human rights, labour, environment and anti-corruption. We would like to express our desire to put these UN Global Compact principles into practice through our letter. The UN Global Compact and its principles will be ingrained in our culture while carrying out programmes, campaigns, day-to-day operations, and participating in collaborative projects that will help to achieve the UN Sustainable Development Goals. Alam Flora Sdn Bhd shall make a clear declaration to our stakeholders and the general public about this commitment.

We are aware that in order to participate in the UN Global Compact, we must submit an annual Communication on Progress (COP) demonstrating our efforts to apply the 10 principles. We care about public accountability and transparency, thus we intend to report on our progress within one year of joining the UN Global Compact, and then annually afterward, in compliance with the UN Global Compact's COP policy. These include:

- A statement signed by the chief executive expressing continued support for the UN Global Compact and renewing our ongoing commitment towards the initiative and its principles. This is separate from our initial letter of commitment in joining the UN Global Compact.
- A description of practical actions (i.e., disclosure of any relevant policies, procedures, activities) that the company has taken (or plans to undertake) in implementing the UN Global Compact principles in each of the four issue areas (human rights, labour, environment and anti-corruption).
- A measure of outcomes (i.e., the degrees to which targets/performance indicators were met, or other qualitative or quantitative measurements of results).

Yours sincerely,

ALAM FLORA SDN BHD
