Dear Secretary General,

I am pleased to confirm that Ultrapar S.A. (also informally known as "Grupo Ultra") supports the Ten Principles of the United Nations Global Compact. We are committed to embrace, support and enact these principles within our sphere of influence, having them as an integral part of culture, strategy and day-to-day operations.

We also commit to engage in cooperative projects that advance the broader United Nations Sustainable Development Goals, and to make clear statements of this commitment to stakeholders and the general public.

We recognize that a fundamental requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) describing our company's efforts to implement the ten principles, as well as our support for the specialized Global Compact platforms that our company may join at a future date. We support public accountability and transparency and are therefore committed to reporting on progress within one year of joining the Global Compact and annually thereafter in accordance with Global Compact COP policy. That includes:

- A statement signed by the Executive Director expressing continued support for the Global Compact and renewing our continued commitment to the initiative and its principles. This document is separate from our initial commitment letter to adhere to the Global Compact;
- A description of the practical actions (i.e., disclosure of any relevant policies, procedures and activities) that the company has taken (or intends to take) to implement the Global Compact principles in each of the four thematic areas (human rights, labor, environment, anti-corruption).
- A measure of results (i.e., the degree to which targets / performance indicators have been met, or other qualitative or quantitative measures of results).

Yours sincerely,

Frederico Fleury Curado  
Chief Executive Officer  
Ultrapar S/A
