## Letter of commitment

Dear Mr Secretary General

I am pleased to confirm that Misio supports the Ten Principles of the United Nations Global Compact on human rights, labour, environment, and anti-corruption.

The Misio purpose is to be a catalyst for positive change in the world through helping people gain knowledge and commitments relating to the United Nations Sustainable Development Goals, achieving net-zero operating targets, supply chain provenance and alignment to the 10 UNGC principles.

With this communication, we express our intent to implement those principles. We are committed to making the UN Global Compact and its principles part of the Misio strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. Misio will make a clear statement of this commitment to our stakeholders, the public and reference this where appropriate through our technology platform.

We recognize that a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the Ten Principles. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the UN Global Compact, and annually thereafter according to the UN Global Compact COP policy.

The principles set by United Nations Global Compact sit at the core of our company values and we are committed to enabling our stakeholders with up to date information relating to our progress. We further commit to enabling companies that use our technology platform with practical tools and systems that will generally progress alignment with the 10 principles. This includes:

- A public statement of support signed by our chief executive officer expressing continued support for the UN Global Compact and our ongoing commitment to the initiative and its principles.
- Practical activities undertaken by both Misio and companies registered on our technology platform to implement the UN Global Compact principles.
- A measurement of outcomes relating to the implementation of the principles

Regards,

**Mr Jeremy Biggs**  
Co-founder & CEO
