RE: UN Global Compact – joining as a smaller and medium-sized enterprise (SME)

Dear Mr. Secretary General,

I am pleased to confirm that Key Capture Energy, LLC (KCE) supports the Ten Principles of the United Nations Global Compact on human rights, labour, environment & anti-corruption. With this communication, we express our intent to implement those principles. We are committed to making the UN Global Compact & its principles part of the strategy, culture & day-to-day operations of our company, & work to advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. KCE will make a clear statement of this commitment to our stakeholders & the general public.

We recognize that a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the Ten Principles. We support public accountability & transparency, and therefore commit to report on progress within one year of joining the UN Global Compact, & annually thereafter according to the UN Global Compact COP policy. This includes:

- A statement signed by the CEO expressing continued support for the UN Global Compact and renewing our ongoing commitment to the initiative and its principles (separate from our initial letter of commitment to join).
- A description of practical actions (i.e., disclosure of any relevant policies, procedures, activities) that KCE has taken (or plans to undertake) to implement the UN Global Compact principles in each of the four issue areas (human rights, labour, environment, anti-corruption).
- A measurement of outcomes (i.e., the degree to which targets/performance indicators were met, or other measurements of results).

Thank you.
