Dear Mr. Secretary-General,

I am pleased to confirm that “NAC Kazatomprom” JSC (hereinafter referred to as “Kazatomprom”) supports the Ten Principles of the United Nations Global Compact on human rights, labour, environment and anti-corruption. As industry leader in responsible uranium production, we express our intent to implement those principles. We stay committed to engaging the UN Global Compact and its principles in our strategy, priorities, values, and corporate culture.

We look forward to becoming the party to joint projects that foster a range of United Nations development goals, namely the Sustainable Development Goals. Being an advocate of transparency “NAC Kazatomprom” JSC will announce of this commitment to our stakeholders and the general public.

Notoriously, becoming the part the UN Global Compact takes a recognition of certain baseline requirements, particularly the annual submission of a Communication on Progress (COP) delineating our company’s endeavors in implementing the Ten Principles. We strongly approve of transparency and public accountability, therefore we commit to report on progress within one year of joining the UN Global Compact, and annually thereafter according to the UN Global Compact COP policy. This includes:

- A statement signed by the chief executive expressing continued support for the UN Global Compact and renewing our ongoing commitment to the initiative and its principles. This is separate from our initial letter of commitment to join the UN Global Compact
- A delineation of practical actions (i.e., disclosure of any relevant policies, procedures, activities) that the company has taken (or plans to undertake) to implement the UN Global Compact principles in each of the four issue areas (human rights, labour, environment, anti-corruption)
- A measurement of outcomes (i.e., the degree to which targets/performance indicators were met, or other qualitative or quantitative measurements of results)

Sincerely yours,

Mazhit Sharipov  
Chief Executive Officer
