Dear Mr. General Secretary,

I am pleased to confirm that **PENTAGONO SOLUTION** supports the ten principles of the Global Compact on human rights, labour, environment and anti-corruption. With this communication, we express our intention to implement these principles. We are committed to making the Global Compact and its principles part of our company's strategy, culture and day-to-day operations and to engaging in cooperative projects that advance the broader United Nations development goals, in particular the Sustainable Development Goals. **PENTAGONO SOLUTION** will make a clear statement of this commitment to stakeholders and the general public.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) outlining our company's efforts in implementation of the ten principles as well as our support for the specialized platform(s) of Global Compact in which our company will join at a future date. We support public accountability and transparency, and therefore we are committed to submitting a progress report within one year of joining the Global Compact and then annually, in line with Global Compact COP policy. That includes:

- Statement signed by the Executive Director, expressing continued support for the Global Compact and renewing our ongoing commitment to the initiative and its principles. This document is separate from our initial letter of commitment to join the Global Compact.
- Description of practical actions (i.e. disclosure of any relevant policies, procedures and activities) that the company has taken (or intends to take) to implement the Global Compact principles (human rights, labour, environment, combating corruption).
- Measuring results (ie the degree to which performance targets/indicators were met, or other qualitative or quantitative measurements of outcomes).

Regards,
