Dear Mr. Secretary-General,

I am delighted to confirm that We Are Pawprint Limited supports the Ten Principles of the United Nations Global Compact on human rights, labour, environment and anti-corruption. We Are Pawprint Limited was born out of a desire to be part of and inspire a community of businesses to believe in, and with this letter we express our intent to implement, and to the best of our ability help others to implement those principles. We are deeply committed to making the UN Global Compact and its principles fundamental drivers of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals, the thirteenth of which (Climate Action) forms the foundation of We Are Pawprint Limited's vision, mission and objectives. In line with our commitments as a certified B Corp, We Are Pawprint Limited will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the Ten Principles. We support public accountability and transparency, and therefore commit to report on our progress and impact within one year of joining the UN Global Compact, and annually thereafter according to the UN Global Compact COP policy.

This includes:

- A statement signed by the chief executive expressing continued support for the UN Global Compact and renewing our ongoing commitment to the initiative and its principles. We recognize this is separate from our initial letter of commitment to join the UN Global Compact.
- A description of practical actions (i.e., disclosure of any relevant policies, procedures, activities) that the company has taken (or plans to undertake) to implement the UN Global Compact principles in each of the four issue areas (human rights, labour, environment, anti-corruption).
- A measurement of outcomes (i.e., the degree to which targets/performance indicators were met, or other qualitative or quantitative measurements of results).

Sincerely yours and many thanks,

Christian Arno
