Dear Mr. Secretary-General,

**Re: Expression of Interest for Signing Up for The Global Compact**

I am pleased to confirm that the AAR Hospital supports the ten principles of the Global Compact on human rights, labour, environment and anti-corruption. We express our intent to implement those principles and make them part of the strategy, culture and day-to-day operations. We are also interested in engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. The AAR Hospital will make a clear statement of this commitment to our stakeholders and the general public.

We recognise that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles.

We support public accountability and transparency, and therefore commit to report on progress within one year of joining the Global Compact. Thereafter, annually in accordance to the Global Compact COP policy. This includes:

- A statement signed by the chief executive expressing continued support for the Global Compact and renewing our ongoing commitment to the initiative and its principles. This is separate from your initial letter of commitment to join the Global Compact.
- A description of practical actions (i.e., disclosure of any relevant policies, procedures, activities) that the company has taken (or plans to undertake) to implement the Global Compact principles in each of the four issue areas (human rights, labour, environment, anti-corruption).
- A measurement of outcomes (i.e., the degree to which targets/performance indicators were met, or other qualitative or quantitative measurements of results).

Sincerely yours,

Dr. Ken Muma  
Chief Executive Officer
