Dear Mr. Secretary-General,

Due to our former colleague, who in charge of the United Nation Global Compact affairs, has resigned and not handover properly, our company's membership has been suspended since missing the COP submission timeline. We are very sorry about that and our company the **Foshan Noble Metal Technology Co. Ltd.** is still looking forward to re-join the United Nations Global Compact organization. We sincerely hope that we could have your permission to re-register into the organization and we are committed to follow the communication policy and fulfill our obligations in the future.

Here to confirm that **Foshan Noble Metal Technology Co. Ltd.** supports the Ten Principles of the United Nations Global Compact on human rights, labour, environment and anti-corruption. With this communication, we express our intent to implement those principles. We are committed to making the UN Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. **Foshan Noble Metal Technology Co. Ltd.** will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the Ten Principles. We support public accountability and transparency, and therefore commit to report on progress within *one year* of joining the UN Global Compact, and *annually* thereafter according to the UN Global Compact COP policy. This includes:

- A statement signed by the chief executive expressing continued support for the UN Global Compact and renewing our ongoing commitment to the initiative and its principles. This is *separate* from our initial letter of commitment to join the UN Global Compact.
- A description of practical actions (i.e., disclosure of any relevant policies, procedures, activities) that the company has taken (or plans to undertake) to implement the UN Global Compact principles in each of the four issue areas (human rights, labour, environment, anti-corruption).
- A measurement of outcomes (i.e., the degree to which targets/performance indicators were met, or other qualitative or quantitative measurements of results).

Sincerely yours,

  
Ms. WANG Jialin  
General Manager
